

The age chart is given to Hub City by the USYSA organization; Hub City does not set these guidelines, but must follow them due to our affiliation with USYSA. If you have questions as to where your player should be placed, please do not hesitate to ask questions by calling the Soccer Office.

Hub City doesn't promote moving players up age groups to play soccer. We have found that is more for the player's benefit that they play within their own age league. However, if parents believe that a player would thrive at a higher age group, they may petition the Hub City Board of Directors to move their player up ONE age group. A PETITION FORM must be obtained at the soccer office and placed on file with the player's registration. The Board of Director's meets twice during the registration month to consider these requests. Contact the Soccer Office for times and dates of these meetings. Players **MAY NOT BE MOVED** down an age group, for insurance purposes.

U6 players are eligible to play under the following guidelines:

1. Correct age eligibility.
2. Currently be in Kindergarten for the spring season or starting kindergarten during the fall season.
3. Be turning 5 within the U-6 soccer season.
4. Petition by the parents/guardian.

Again, if you have questions, please contact the Soccer Office at 225-0088
